About KRL

KRL is an Asia-Pacific focused gold mining company with four highly prospective gold-copper projects, Kili Teke, KRL South, KRL North and the May River Project. All projects are located in premier mining regions in PNG. Both KRL North and KRL South show potential to host high-grade epithermal and porphyry mineralisation, as seen elsewhere in the high-grade Kainantu Gold District. The May River project is near the world-renowned Frieda River Copper-Gold Project, with historical drilling indicating the potential for significant copper-gold projects. Kili Teke is an advanced development project with an existing inferred mineral resource. KRL has a highly experienced board and management team with a proven track record of working together in the region; and an established in-country partner.
