Notes to the Consolidated Financial Statements

Nine Months Ended December 31, 2025 and 2024

(Presented in Canadian Dollars)

(Unaudited)

1. NATURE OF BUSINESS AND GOING CONCERN

South Pacific Metals Corp. (“SPMC” or the “Company”) was incorporated under the Business Corporations Act (British Columbia) on July 4, 2018, as a Capital Pool Company under the policies of the TSX Venture Exchange (the “TSX-V”). On December 3, 2020, the Company completed its Qualifying Transaction (the “Transaction”) by completing a reverse take-over of an Kainantu Resources Ltd., which owns title to certain mineral tenements making up the Kainantu project in Papua New Guinea (“PNG”). The Company is a mineral exploration company engaged in the acquisition and exploration of mineral properties in PNG. The Company’s head office is located at 710 -1030 West Georgia Street, Vancouver, BC.

On February 6, 2024, the Company changed its name to South Pacific Metals Corp. The Company’s shares trade on the TSX-V under the symbol SPMC, on the OTCQB under the symbol SPMEF and on the Frankfurt Stock Exchange under the symbol 6JO.

The Company has retroactively changed its presentation currency to the Canadian dollar (“CAD”) from the United States dollar (“USD”). The change is detailed in Note 2.

These condensed interim consolidated financial statements have been prepared on the assumption that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of business. The Company has incurred losses since inception. For the nine months ended December 31, 2025 the Company incurred a net loss of \$1,910,270 (2024 – \$1,401,974) and has an accumulated deficit of \$12,079,791 at December 31, 2025 (March 31, 2025 - \$10,169,521). The Company expects to incur further losses in the exploration of its mineral properties.

As the Company is in the exploration stage, the Company’s ability to continue as a going concern and fund its exploration activity is dependent on the Company being able to draw down on its current cash, maintain cost control measures and raise additional capital. The ability to continue as a going concern remains dependent on the Company’s capacity to obtain the additional financing necessary to continue to fund its mineral properties, the realization of future profitable production, proceeds from the disposition of its mineral interests, and/or other sources. The Company has been successful raising capital in the past and expects to have access to the resources to continue its operations for the foreseeable future but there can be no assurance that Company will have access to the capital markets.

These conditions indicate the existence of material uncertainties which may cast significant doubt on the Company’s ability to continue as a going concern. These condensed interim consolidated financial statements do not give effect to adjustments to the carrying values and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PREPARATION

Statement of compliance

These condensed interim consolidated financial statements, including comparatives, have been prepared using accounting policies consistent with IFRS Accounting Standards and International Accounting Standards as issued by the International Accounting Standards Board (IASB) and Interpretations (collectively IFRS Accounting Standards).

Change in fiscal year end

The Company has transitioned to a new fiscal year-end from December 31 to March 31, effective January 1, 2024. As a result, fiscal year ended March 31, 2025 was a transition year that included 15 months of operations, starting on January 1, 2024 and ending on March 31, 2025. The Company's current 12-month financial year began April 1, 2025 and ends on March 31, 2026.

Change in presentation currency

These consolidated financial statements are presented in Canadian dollars. All financial information is expressed in Canadian dollars unless otherwise stated.

The Company has adopted the Canadian dollar as the presentation currency for the consolidated entity retrospectively. For comparative reporting purposes, historical financial statements were translated into the Canadian dollar reporting currency whereby assets and liabilities were translated at the closing rate in effect at the end of the comparative periods; revenues, expenses and cash flows were translated at the average rate in effect for the comparative periods and equity transactions were translated at historic rates. The change has been adopted to provide alignment between the Company's external reporting and its internal financial metrics.

Exchange differences arising on translation of comparative periods have been recognized in other comprehensive income and presented in the accumulated other comprehensive income within equity.

2. BASIS OF PREPARATION (Cont'd...)

Basis of measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which have been measured at fair value through profit and loss.

Consolidation

These condensed interim consolidated financial statements include the financial statements of the Company and its controlled subsidiaries (together, the “Group”). Control is achieved when the Company has the power to, directly or indirectly, govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are fully consolidated from the date on which control is obtained and continue to be consolidated until the date that such control ceases. Intercompany balances, transactions and unrealized intercompany gains and losses are eliminated upon consolidation.

Company	Ownership %	Country of incorporation	Nature / Activities	Functional Currency

3. MATERIAL ACCOUNTING POLICY INFORMATION

Use of judgements and estimates

In preparing these interim financial statements, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgments made by management in applying the Company’s accounting policies and the key sources of estimation uncertainty are consistent with those described in the March 31, 2025 annual financial statements.

Standards and interpretations issued but not yet effective

At the date of authorization of these condensed interim financial statements, the IASB has not issued any new or revised standards expected to have a material impact on the results and financial position of the Company when adopted.

4. MANAGEMENT OF CAPITAL

The Company is an exploration stage company, and this involves a high degree of risk. The Company has not determined whether its mineral properties contain economically recoverable reserves of ore. The Company's primary source of funds comes from the issuance of share capital. The Company does not use other sources of financing that require fixed payments of interest and principal due to lack of cash flow from current operations and is not subject to any externally imposed capital requirements.

The Company defines its capital as equity. Capital requirements are driven by the Company's exploration activities on its mineral properties. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet its strategic goals. The Company monitors actual expenses to budget on all exploration projects and overhead to manage costs, commitments, and exploration activities.

There have been no changes to the Company's approach to capital management during the Nine months ended December 31, 2025.

5. ACCOUNTS RECEIVABLE

The Company's receivable balance of \$166,399 (March 31, 2025 - \$127,043) consists entirely of recoverable GST from the government of Canada.

6. LONG-TERM PREPAID ASSETS

	December 31, 2025	March 31, 2025
Long-term prepaid assets	\$ 134,595	\$ 174,195
	\$ 134,595	\$ 174,195

Deposits include security deposits pertaining to exploration licenses and certain prepaid assets that will be reclassified to exploration and evaluation assets.

Kainantu Project

On December 3, 2020, the Company agreed to acquire Kainantu Resources Ltd ("Kainantu"), which holds title to certain mineral claims that make up the Anga and Osenia projects.

On January 16, 2024, following satisfaction of all conditions the Company issued 500,000 shares with a fair value of \$100,000 to the original shareholders of Kainantu in full satisfaction of its obligations under the Transaction.

Kili Teke Project

On April 6, 2022, the Company entered into an asset sale and royalty agreement with Harmony Gold (PNG) Exploration Limited ("Harmony") to acquire certain mineral claims ("Kili Teke Claims") that make up the Kili Teke project. To acquire the Kili Teke Claims, the Company agreed to pay \$625,674, less assumed liabilities of \$31,647, on completion of the agreement (paid) and to make a final cash payment of \$674,672 (paid) and to issue 1,125,725 warrants (issued).

During the year ended December 31, 2023, the Company completed the acquisition of the Kili Teke Claims by making the final cash payment of \$674,672 and by issuing 1,125,725 warrants with a fair value of \$270,075. The warrants have an exercise price of \$2.80 per share and are exercisable into one common share of the Company until September 14, 2026.

8. EXPLORATION AND EVALUATION ASSETS (Cont'd...)

May River Project

On June 15, 2021 the Company entered in an option agreement to acquire 100% of Hardrock Ltd (“Hardrock”), a PNG company that owns title to the claims that make up the May River project. The Company acquired 10% under the first option payment by making certain cash (paid) and share issuances (issued). Total cash and shares issuance under the first option payment totalled \$346,481. Under the option agreement, the Company had the right to acquire the remaining 90% by making the second option payment that include certain cash and share issuances.

On March 17, 2023, the Company and the original shareholders of Hardrock entered into an amending share sale agreement whereby the Company could acquire the remaining 90% of Hardrock by issuing 1,800,000 common shares of the Company to the original shareholders. During the year ended December 31, 2023, the Company completed the 100% acquisition of Hardrock by issuing 1,800,000 common shares at a fair value of \$1,134,087 and incurring legal fees of \$8,815.

During the nine months ended December 31, 2025, the Company incurred \$3,063,943 (2024 - \$1,176,764) in exploration expenditures, as follows:

	December 31, 2025	December 31, 2024
Exploration and evaluation costs:

9. ACCOUNTS PAYABLE

Accounts payable and accrued liabilities comprise the following:

	December 31, 2025	March 31, 2025
Trade payables	\$ 503,145	\$ 181,472
Disputed payables	479,710	503,163
Accrued liabilities	45,000	70,000
	<u>\$ 1,027,855</u>	<u>\$ 754,635</u>

Disputed payables include accounts payable balances that were the result of previous management, which have not been substantiated as legitimate payables by the Company's new management team. The Company has exhausted its attempts to substantiate the legitimacy of these payable balances with no further communication from the vendors. As a result, the Company will deny payment and will vigorously defend itself against any claims for payment that may arise from the associated vendors.

10. PROMISSORY NOTE

On November 27, 2023, the Company issued a \$690,350 promissory note to an arm's length lender. The note is non-interest bearing and due on demand. During the year ended December 31, 2023, the Company incurred a commitment fee of \$48,325 on issuance of the promissory note. During the fifteen months ended March 31, 2025, the promissory note and commitment fee were paid in full.

11. CONVERTIBLE DEBENTURES

During the year ended December 31, 2023, the Company completed a private placement of unsecured convertible debentures of the Company at a price of \$0.80 per unit for gross proceeds of \$1,270,000. Each unit consists of: (i) one convertible debenture, convertible into one common share of the Company at a price of \$0.80; and (ii) one detachable warrant to purchase another common share of the Company at a price of \$1.20 per warrant.

Each convertible debenture matures on the date that is 36 months from the date of issuance of the convertible debenture. On the maturity date, the outstanding principal amount of the convertible debenture shall be repaid in cash. The principal amount shall be convertible, for no additional consideration, after 12 months from issuance.

In the event that at any time following 18 months after the date hereof:

- The 60-day VWAP is equal to or greater than 200% of the Conversion Price, the Company will thereafter be entitled, at any time or multiple times up to the maturity date, to convert up to 50% of the outstanding principal amount of this Debenture, as determined by the Company, into common shares at the Conversion Price; and
- The 60-day VWAP is equal to or greater than 300% of the Conversion Price, the Company will thereafter be entitled, at any time or multiple times up to the maturity date, to convert all or a portion of the outstanding principal amount of this Debenture, as determined by the Company, into common shares at the Conversion Price.

The convertible debentures bear interest at a rate of 10% per annum from the date of issue to be paid in cash on an annual basis. The interest will be payable in arrears on the earlier of the conversion of the convertible debentures and the maturity date. If the conversion of the convertible debentures occurs prior to the maturity date, the holder of the convertible debentures shall be entitled to all accrued and outstanding unpaid interest. The conversion feature is subject to an anti-dilution clause in the event the Company issues equity securities at a price lower than \$0.80 per share.

The convertible debentures contain a financial liability component, a derivative liability component and an equity component, being the detachable warrants which grant the holder the option to acquire an equity interest in the Company. The Company bifurcated the convertible debentures using a discounted cash flow model with discounted rate of 17.80% and recognized a financial liability of \$992,070 at initial recognition, representing the host feature of the debt.

The derivative portion, represent the conversation feature was valued using the Black-Sholes option pricing model with the following assumptions:

13. FINANCIAL RISK MANAGEMENT

The activities of the Company expose them to a variety of financial risks that arise as a result of their exploration and financing activities, including credit risk, liquidity risk and market risk.

This note presents information about the Company's exposure to each of the above risks, the objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout these condensed interim consolidated financial statements.

The Board of Directors of the Company oversees management's establishment and execution of the Company's risk management framework. Management has implemented and monitors compliance with risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's cash and receivables. The Company's credit exposure is limited to the carrying amount of these financial assets.

The Company's cash is held by high-credit-rated financial institutions and, as such, the Company does not believe there to be a significant credit risk. The Company's concentration of credit risk and maximum exposure is as follows:

	December 31, 2025	March 31, 2025
Cash at Canadian financial institutions	\$ 8,777,824	\$ 5,057,904
Cash at PNG financial institutions	323,985	90,749
Total	\$ 9,101,809	\$ 5,148,653

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting their financial liabilities that are settled in cash or other financial assets. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities as they come due.

The amounts for accounts payable are subject to normal trade terms. The Company expects to settle its financial liabilities within normal trading terms.

13. FINANCIAL RISK MANAGEMENT (Cont'd...)

Market risk

Market risk is the risk that changes in market prices, such as equity prices and foreign exchange rates will affect the Company's profit or loss or the value of its financial instruments.

Foreign currency risk

Foreign currency risk is the risk that the Company's financial performance will be affected by fluctuations in the exchange rates between currencies. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when expenses are denominated in currencies other than the respective functional currencies). The Company manages this foreign currency risk by matching payments in the same currency and monitoring movements in exchange rates.

As at December 31, 2025, and assuming all other variables remain constant, a 10% change in the value of the US dollar against the Company's exposure to foreign currencies would result in a change of approximately \$294,000 (2024 – 100,000).
